## *Eid Gift Catalogue*

# Our Purpose

*The tradition of Eidyah, or “Eid Gifts” dates back to the 10th century when Fatimid caliphs gave out money, sweets, and clothes to the young and old on the first day of Eid. Gifting is a tradition, deeply rooted in the culture of our region, and one that will no doubt endure.*

*As times change, and countries like the U.A.E. and the Kingdom of Saudi Arabia pursue world-leading sustainable development goals, traditions change as well. Gifting is no different. Over 72% of firms have integrated eco-friendly gifts in their client outreach - with good reason - 50% of the recipients report a more positive perception of the firms that gift them.*

*It's time to realize that sustainable and socially impactful gifts are an ethical AND a strategic move to a more responsible future.*

*At Do Good Pack, we aim to partner with companies to achieve these sustainable visions. We have curated the Eid Gift Catalogue as a means to preserve the tradition, and accelerate the ambition.*

*Each product is carefully selected to deepen relationships, foster trust and promote societal and environmental well-being. They are sourced from companies who follow sustainable practices, reuse waste responsibly, empower women and minorities and create local employment opportunities.*

*On our part, we contribute a portion of our proceeds to support four causes that we are passionate about - restoring mangroves, feeding the less fortunate, providing access to clean drinking water and empowering children of determination. We hope to do a lot more.*

*This festive season, it is time to do more with your gifts.  
It is time to DO GOOD.*

*Grateful to our clients*

## *The Saudi Arabia Dates Collection*

*Dates evoke a sense of nostalgia and connection to heritage. Many Saudis associate memories of family gatherings, festive occasions, and the passing down of traditions with the sharing of dates.*

*During the holy month of Ramadan, dates take on a special role as the traditional food to break the fast, a practice observed for generations.*

*Our curation serves as a testament to the enduring connection between the people of Saudi Arabia and this ancient, nutritious fruit.*

*Created in collaboration with the Kingdom of Saudi Arabia Ministry of Culture, this special coffee table book, “A Portrait of the Sacred Fruit” pays homage to the fruit.*

*Complementing the book, is a collection of luxury dates in a wooden box with a map of the Arabian Peninsula, and a magnificent wooden tray, crafted expertly by local craftsmen from the roots of a teak tree, each piece depicting a story unique to the tree it belongs to.*

# *Our Commitment*

*We have made every effort to source products from companies who commit to social and environmental sustainability, and hope you have enjoyed browsing our catalogue.*

*However, it is imperative that we commit to make a difference as well. To help create the change that we aspire towards, we support four causes that make a difference, and donate a portion of the proceeds from each order towards them.*

*(1) Education: Ta'alouf (Harmony) is an initiative from the Al Jalila Foundation to empower children of determination through training programs for teachers and parents.*

*(2) Safe Water: Water.org has empowered more than 60 million people with access to safe water or sanitation through affordable financing.*

*(3) Access to Food: Food ATM helps establish food security for lesser privileged and low-income communities and workers in the U.A.E.*

*(4) Reforestation: With your help, Trees for the Future (TREES) restores landscapes in developing communities to break the cycle of hunger, poverty, and environmental destruction.*

# *FAQs*

## ***Can I substitute products across gift sets?***

*Absolutely! You know the recipient better than we do, so feel free to mix and match. Pricing might change, we'll let you know by how much.*

## ***How do I know my gift creates environmental and social impact?***

*All our products are sourced from very reputable organizations, in some cases government backed or publicly listed. As for us, we commit to donate a portion of the proceeds to the organizations we support.*

## ***I like the idea but not the gifts - can you curate one for me?***

*Yes, we can - but within reason. Most important, anything we curate must create impact to society and our environment. And, since we will be spending a significant amount of time to curate your perfect gift, we will require a MOQ from you (determined based on the value of the curated gift).*

## ***I love the gifts - how can I ensure my client won't get the same gift from someone else?***

*Our gifts aren't mass produced so the likelihood is small to start with.*

*However we can try. Here's how - with a MOQ for a gift set, we will ask you for: (1) The client who you will be sending this gift to (2) 5 competitors you would not like us to sell an identical gift set to.*

*It's in everyone's best interest to neither send or receive an identical gift, so if we do receive a request for the same client and gift from one of your competitors, we'll work with them to find a suitable replacement. In full transparency, we are a business, so cannot commit to this, but we hope to provide as much exclusivity in your gift as possible. Including a logo, and a personalized engraved message are other ways we hope to achieve this.*

## ***Anything Else? Please feel free to ask,***
